

# How to cut the Solexx for the south wall

Using 49.5 inch wide  
and 5 mm thick Solexx  
cut it 181.5 inches long  
Make sure both ends are square  
Measure up 66 inches  
Lay out a 45 degree angle  
Use a box cutter and cut the 45

This will leave room  
at the bottom to frame in  
24 inch vents
